Chairman's Letter

Dear Shareholders,

Greetings from Panache!!

As I prepare to present to you Panache Innovations Limited Annual Report 2021-22, on behalf of the Board of Directors, I welcome you all to the 41st Annual General Meeting of your company. I would discuss topics that will help to improve the understanding of the company's growth strategy, performance, and forecasts to create value for all its stakeholder over the short, medium & long term.

For many years, we have been talking about increasing volatility and unpredictability. The events of the last 24 months have heralded a new era of uncertainty where both the amplitude and frequency of shifts have vastly exceeded anything we have seen in recent decades. The unprecedented pandemic was followed by supply chain whiplash, and further disruption was brought on by the Russia- Ukraine war. We are now staring at the spectra of a high- interest rate and high-inflation regime globally.

Over the years, corporations have tried to find a balance between efficiency and resilience, with successive decades of growth having swung the pendulum in the direction of efficiency. The events of the last two years have again taught us all the virtues of reserves and resilience.

This era of disruption also presents a unique opportunity for renewal. The exigencies of this disruption have pushed the boundaries of innovation. A world where traditional rules didn't apply, freed thinking from its conventional shackles. And we are clearly staring at a new age, with new paradigms and new ideas

EXTERNAL ENVIRONMENT - GLOBAL ECONOMY:

The Global economy recovered from the pandemic shock in 2022 on the back of supportive fiscal and monetary policies and mass vaccination programmes. However, at the end of FY22, the war in Ukraine and the subsequent economic sanctions on Russia posed a large shock. It disrupted energy markets & supply chains and added to the already evolving inflationary pressures and concerns over consumer demand. Consequently, growth forecasts have been slashed. The International Monetary Fund (IMF) now expects the world economy to grow by 3.6% in CY22, which is 0.8 percentage points lower than its pre-war projections.

Many economies have experienced a sharp surge in inflation recently, particularly in food and fuel prices, taking their inflation rates to multi-decade highs. Central banks have been forced to respond to surging prices with aggressive rate hikes. The pace of monetary tightening is turning out to be quite swift as central bankers attempt to catch up with the rising inflation from their ultra-accommodative stance during the pandemic.

As the stance of monetary policy shifts, there is greater turbulence in currency markets. The dollar has strengthened, while emerging economies have witnessed downward pressure on their currencies. At the same time, energy and commodity markets have witnessed heightened volatility. Global supply chain disruptions due to pandemic-induced lockdowns have been replaced by new disruptions caused by the war in Ukraine and the economic sanctions.

While the global economic backdrop remains challenging, there are reasons to remain optimistic. First, despite the slowdown, IMF's projection of world GDP growth in CY22 is still tracking the pre-pandemic average. Second, fiscal support in developed economies remains above the pre-pandemic trend, even if somewhat diluted, versus past years. Third, mega-trends around sustainability, green investments, digitization, and disintermediation remain well-entrenched and will support growth and productivity enhancement in the medium-term.

Thus, while businesses will need to remain on guard regarding financial market volatility and cost pressures this year, one could expect the medium-term growth recovery to remain on track.

Amidst new COVID-19 variants, geo-political crises, soaring commodity prices and high inflation, this financial year saw India emerge as a bright spot in the global economy. This is testament to our government's steadfast focus on making India an economy that is prepared to not just participate but lead in the technology value chain and the fourth industrial revolution. With the active involvement of the private sector, prodigious efforts were made to increase industrial competitiveness, make internal markets more efficient and incentivize investments in sectors of the future. We must all prepare to take a big step forward and have the courage to do things in new way with renewed confidence.

INDIA: AN ENGINE OF GLOBAL GROWTH

The Indian economy has not remained unscathed by these global developments. Partly on account of the elevated commodity prices in global markets, India's inflation has pushed higher than the target of the Reserve Bank of India (RBI). To control inflationary risks, and reduce the pressure on the rupee, RBI has been selling reserves and unwinding the extraordinary liquidity support provided by it during the pandemic.

On the positive side, economic activity in India has witnessed a sharp recovery to pre-pandemic levels on the back of a rapid and widespread rollout of the vaccination programme. A strong digital ecosystem, fiscal and monetary policy and various government schemes helped small and medium enterprises and the worst affected sections of the population to survive while reviving demand and bringing the economy back on track.

Even as the global headwinds are being felt, India's growth recovery is progressing well, and most estimates peg economic growth during FY23 around the 7% range. India, therefore, is poised to be the fastest-growing major economy in the world and an engine of global growth.

India's exports are exhibiting a strong buoyancy, and economic sentiment has been supported by a robust pipeline of infrastructure projects as well as the government's pragmatic policies, such as the production-linked incentives schemes. Many industries have witnessed fresh project investment announcements. Foreign direct investment flows have remained strong. The burden of non-performing assets in the banking sector seems to have peaked out and is easing. Dynamism in India's digital ecosystem, diversification of global supply chains away from China and the greater emphasis of investors on sustainable finance offer new opportunities for India.

The above trends lend confidence to a robust economic narrative for India in the medium-term, which augurs well for the corporate sector as well.

Unless otherwise specified or the context otherwise requires, all references herein to "we", "us", "our", "the Company", "Panache" are to Panache Innovations Limited.

We are pleased to present our performance highlights for FY2021-22 and the business outlook for this year:

GLOBAL ECONOMIC

A tentative recovery in 2021 has been followed by increasingly gloomy developments in 2022 as risks began to materialize. Global output contracted in the second quarter of this year, owing to downturns in China and Russia, while US consumer spending undershot expectations. Several shocks have hit a world economy already weakened by the pandemic: higher-than-expected inflation worldwide—especially in the United States and major European economies—triggering tighter financial conditions; a worse-than-anticipated slowdown in China, reflecting COVID-19 outbreaks and lockdowns; and further negative spillovers from the war in Ukraine.

The baseline forecast is for growth to slow from 6.1 percent last year to 3.2 percent in 2022, 0.4 percentage point lower than in the April 2022 World Economic Outlook. Lower growth earlier this year, reduced household purchasing power, and tighter monetary policy drove a downward revision of 1.4 percentage points in the United States. In China, further lockdowns and the deepening real estate crisis have led growth to be revised down by 1.1 percentage points, with major global spillovers. And in Europe, significant downgrades reflect spillovers from the war in Ukraine and tighter monetary policy. Global inflation has been revised up due to food and energy prices as well as lingering supply-demand imbalances, and is anticipated to reach 6.6 percent in advanced economies and 9.5 percent in emerging market and developing economies this year—upward revisions of 0.9 and 0.8 percentage point, respectively. In 2023, disinflationary monetary policy is expected to bite, with global output growing by just 2.9 percent.

The risks to the outlook are overwhelmingly tilted to the downside. The war in Ukraine could lead to a sudden stop of European gas imports from Russia; inflation could be harder to bring down than anticipated either if labor markets are tighter than expected or inflation expectations unanchored; tighter global financial conditions could induce debt distress in emerging market and developing economies; renewed COVID-19 outbreaks and lockdowns as well as a further escalation of the property sector crisis might further suppress Chinese growth; and geopolitical fragmentation could impede global trade and cooperation. A plausible alternative scenario in which risks materialize, inflation rises further, and global growth declines to about 2.6 percent and 2.0 percent in 2022 and 2023, respectively, would put growth in the bottom 10 percent of outcomes since 1970.

With increasing prices continuing to squeeze living standards worldwide, taming inflation should be the first priority for policymakers. Tighter monetary policy will inevitably have real economic costs, but delay will only exacerbate them. Targeted fiscal support can help cushion the impact on the most vulnerable, but with government budgets stretched by the pandemic and the need for a disinflationary overall macroeconomic policy stance, such policies will need to be offset by increased taxes or lower government spending. Tighter monetary conditions will also affect financial stability, requiring judicious use of macroprudential tools and making reforms to debt resolution frameworks all the more necessary. Policies to address specific impacts on energy and food prices should focus on those most affected without distorting prices. And as the pandemic continues, vaccination rates must rise to guard against future variants. Finally, mitigating climate change continues to require urgent multilateral action to limit emissions and raise investments to hasten the green transition.

GOVERNMENT INITIATIVES

The Government of India has taken several initiatives to improve the economic condition of the country. Some of these are:

- As of April 2022, India signed 13 Free Trade Agreements (FTAs) with its trading partners including major trade agreements like the India-UAE Comprehensive Partnership Agreement (CEPA) and the India-Australia Economic Cooperation and Trade Agreement (IndAus ECTA).
- The Union Budget of 2022-23 was presented on February 1, 2022, by the Minister for Finance & Corporate Affairs, Ms. Nirmala Sitharaman. The budget had four priorities PM GatiShakti, Inclusive Development, Productivity Enhancement and Investment and Financing of Investments. In the Union Budget 2022-23, effective capital expenditure is expected to increase by 27% at Rs. 10.68 lakh crore (US\$ 142.93 billion) to boost the economy. This will be 4.1% of the total Gross Domestic Production (GDP).
- Under PM GatiShakti Master Plan the National Highway Network will develop 25,000 km of new highways network which will be worth Rs. 20,000 crore (US\$ 2.67 billion). In 2022-23. Increased government expenditure is expected to attract private investments, with a production-linked incentive scheme providing excellent opportunities. Consistently proactive, graded, and measured policy support is anticipated to boost the Indian economy.
- In February 2022, Minister for Finance and Corporate Affairs Ms. Nirmala Sitharaman said that productivity linked incentive (PLI) schemes would be extended to 14 sectors to achieve the mission of AtmaNirbhar Bharat and create 60 lakh jobs with an additional production capacity of Rs. 30 lakh crore (US\$ 401.49 billion) in the next five years.
- In the Union Budget of 2022-23, the government announced funding for the production linked incentive (PLI) scheme for domestic solar cells and module manufacturing of Rs. 24,000 crore (US\$ 3.21 billion).
- In the Union Budget of 2022-23, the government announced a production linked incentive (PLI) scheme for Bulk Drugs which was an investment of Rs. 2500 crore (US\$ 334.60 million).
- In the Union Budget of 2022, Minister for Finance & Corporate Affairs Ms. Nirmala Sitharaman announced that a scheme for design-led manufacturing in 5G would be launched as part of the PLI scheme.
- In September 2021, Union Cabinet approved major reforms in the telecom sector, which are expected to boost employment, growth, competition, and consumer interests. Key reforms include rationalization of adjusted gross revenue, rationalization of bank guarantees (BGs), and encouragement of spectrum sharing.
- In the Union Budget of 2022-23, the government has allocated Rs. 44,720 crore (US\$ 5.98 billion) to Bharat Sanchar Nigam Limited (BSNL) for capital investments in the 4G spectrum.
- Minister for Finance & Corporate Affairs Ms. Nirmala Sitharaman allocated Rs. 650 crore (US\$ 86.69 million) for the Deep Ocean mission that seeks to explore vast marine living and non-living resources. Department of Space (DoS) has got Rs. 13,700 crore (US\$ 1.83 billion) in 2022-23 for several key space missions like Gaganyaan, Chandrayaan-3, and Aditya L-1 (sun).
- In May 2021, the government approved the production linked incentive (PLI) scheme for manufacturing advanced chemistry cell (ACC) batteries at an estimated outlay of Rs. 18,100

crore (US\$ 2.44 billion); this move is expected to attract domestic and foreign investments worth Rs. 45,000 crore (US\$ 6.07 billion).

- Minister for Finance & Corporate Affairs Ms Nirmala Sitharaman announced in the Union Budget of 2022-23 that the Reserve Bank of India (RBI) would issue Digital Rupee using blockchain and other technologies.

- In the Union Budget of 2022-23, Railway got an investment of Rs. 2.38 lakh crore (US\$ 31.88 billion) and over 400 new high-speed trains were announced. The concept of "One Station, One Product" was also introduced.

- To boost competitiveness, Budget 2022-23 has announced reforming the 16-year-old Special Economic Zone (SEZ) act.

- In June 2021, the RBI (Reserve Bank of India) announced that the investment limit for FPI (foreign portfolio investors) in the State Development Loans (SDLs) and government securities (G-secs) would persist unaffected at 2% and 6%, respectively, in FY22.

- To boost the overall audit quality and transparency and add value to businesses, in April 2021, the RBI issued a notice on new norms to appoint statutory and central auditors for commercial banks, large urban co-operatives, and large non-banks and housing finance firms.

- In May 2021, the Government of India allocated Rs. 2,250 crore (US\$ 306.80 million) for the development of the horticulture sector in 2021-22.

- In November 2020, the Government of India announced Rs. 2.65 lakh crore (US\$ 36 billion) stimulus package to generate job opportunities and provide liquidity support to various sectors such as tourism, aviation, construction, and housing. Also, India's cabinet approved the production-linked incentives (PLI) scheme to provide ~Rs. 2 trillion (US\$ 27 billion) over five years to create jobs and boost production in the country.

- Numerous foreign companies are setting up their facilities in India on account of various Government initiatives like Make in India and Digital India. Prime Minister of India Mr. Narendra Modi launched the Make in India initiative with an aim to boost the country's manufacturing sector and increase the purchasing power of an average Indian consumer, which would further drive demand and spur development, thus benefiting investors. The Government of India, under its Make in India initiative, is trying to boost the contribution made by the manufacturing sector with an aim to take it to 25% of the GDP from the current 17%. Besides, the government has also come up with the Digital India initiative, which focuses on three core components: the creation of digital infrastructure, delivering services digitally, and increasing digital literacy.

- On January 29, 2022, the National Asset Reconstruction Company Ltd (NARCL) will acquire bad loans worth up to Rs. 50,000 crores (US\$ 6.69 billion) about 15 accounts by March 31, 2022. India Debt Resolution Co. Ltd (IDRCL) will control the resolution process. This will clean up India's financial system and help fuel liquidity and boost the Indian economy.

- National Bank for Financing Infrastructure and Development (NaBFID) is a bank that will provide non-recourse infrastructure financing and is expected to support projects from the first quarter of FY2022-23; it is expected to raise Rs. 4 lakh crore (US\$ 53.58 billion) in the next three years.

- By November 1, 2021, India and the United Kingdom hope to begin negotiations on a free trade agreement. The proposed FTA between these two countries is likely to unlock business opportunities and generate jobs. Both sides have renewed their commitment to boost trade in a manner that benefits all.
- In August 2021, NITI Aayog and Cisco collaborated to encourage women's entrepreneurship in India.
- In August 2021, Prime Minister Mr. Narendra Modi announced an initiative to start a national mission to reach the US\$ 400 billion merchandise export target by FY22.
- In August 2021, Prime Minister Mr. Narendra Modi launched a digital payment solution, e-RUPI, a contactless and cashless instrument for digital payments.
- In June 2021, RBI Governor Mr. Shaktikanta Das announced the policy repo rate unchanged at 4%. He also announced various measures, including Rs. 15,000 crores (US\$ 2.05 billion) liquidity support to contact-intensive sectors such as tourism and hospitality.
- In June 2021, Finance Ministers of G-7 countries, including the US, the UK, Japan, Italy, Germany, France and Canada, attained a historic contract on taxing multinational firms as per which the minimum global tax rate would be at least 15%. The move is expected to benefit India by increasing foreign direct investments in the country.
- In June 2021, the Indian government signed a US\$ 32 million loan with World Bank for improving healthcare services in Mizoram.
- In May 2021, the Government of India (GoI) and European Investment Bank (EIB) signed the finance contract for the second tranche of EUR 150 million (US\$ 182.30 million) for the Pune Metro Rail project.
- According to an official source, as of September 15, 2021, 52 companies have filed applications under the Rs. 5,866 crore (US\$ 796.19 million) production-linked incentive scheme for the white goods (air conditioners and LED lights) sector.
- In May 2021, Union Cabinet approved the signing of a memorandum of understanding (MoU) on migration and mobility partnership between the Government of India, the United Kingdom of Great Britain and Northern Ireland.
- In April 2021, Minister for Railways and Commerce & Industry and Consumer Affairs, Food & Public Distribution, Mr. Piyush Goyal, launched the 'DGFT Trade Facilitation' app to provide instant access to exporters/importers anytime and anywhere.
- In April 2021, Dr. Ahmed Abdul Rahman AlBanna, Ambassador of the UAE to India and Founding Patron of IFIICC, stated that trilateral trade between India, the UAE and Israel is expected to reach US\$ 110 billion by 2030.
- India is expected to attract investment of around US\$ 100 billion in developing the oil and gas infrastructure during 2019-23.
- The Government of India is going to increase public health spending to 2.5% of the GDP by 2025.

ROAD AHEAD

Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution Mr. Piyush Goyal, on January 21, 2022 said that Indian industry to raise 75 unicorns in the 75 weeks leading up to the country's 75th anniversary next year.

- Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr. Piyush Goyal said that India will achieve exports worth US\$ 1 trillion by 2030.
- India's electronic exports are expected to reach US\$ 300 billion by 2025-26. This will be nearly 40 times the FY2021-22 exports (till December 2021) of US\$ 67 billion.

As per the data published in a Department of Economic Affairs report, in the first quarter of FY22, India's output recorded a 20.1% YoY growth, recovering >90% of the pre-pandemic output in the first quarter of FY20. India's real gross value added (GVA) also recorded an 18.8% YoY increase in the first quarter of FY22, posting a recovery of >92% of its corresponding pre-pandemic level (in the first quarter of FY20). Also, in FY21, India recorded a current account surplus of 0.9% of the GDP. The growth in the economic recovery is due to the government's continued efforts to accelerate vaccination coverage among citizens. This also provided an optimistic outlook to further revive industrial activities.

As per RBI's revised estimates for July 2021, the real GDP growth of the country is estimated at 21.4% for the first quarter of FY22. The increase in the tax collection, along with the government's budget support to states, strengthened the overall growth of the Indian economy.

India is focusing on renewable sources to generate energy. It is planning to achieve 40% of its energy from non-fossil sources by 2030. In line with this, in May 2021, India, along with the UK, jointly launched a 'Roadmap 2030' to collaborate and combat climate change by 2030.

FMCG (FAST-MOVING CONSUMER GOODS) INDUSTRY

INTRODUCTION:

Fast-moving consumer goods (FMCG) sector is India's fourth-largest sector with household and personal care accounting for 50% of FMCG sales in India. Growing awareness, easier access and changing lifestyles have been the key growth drivers for the sector. The urban segment (accounts for a revenue share of around 55%) is the largest contributor to the overall revenue generated by the FMCG sector in India. However, in the last few years, the FMCG market has grown at a faster pace in rural India compared to urban India. Semi-urban and rural segments are growing at a rapid pace and FMCG products account for 50% of the total rural spending.

MARKET SIZE:

The FMCG market in India is expected to increase at a CAGR of 14.9% to reach US\$ 220 billion by 2025, from US\$ 110 billion in 2020. The Indian FMCG industry grew by 16% in CY21 a 9-year high, despite nationwide lockdowns, supported by consumption-led growth and value expansion from higher product prices, particularly for staples. The rural market registered an increase of 14.6% in the same quarter and metro markets recorded positive growth after two quarters. Final consumption expenditure increased at a CAGR of 5.2% during 2015-20. According to Fitch Solutions, real household spending is projected to increase 9.1% YoY in 2021, after contracting >9.3% in 2020 due to economic impact of the pandemic. The FMCG

sector's revenue growth will double from 5-6% in FY21 to 10-12% in FY22, according to CRISIL Ratings. Price increases across product categories will offset the impact of rising raw material prices, along with volume growth and resurgence in demand for discretionary items, are driving growth. The FMCG sector grew by 36.9% in the April-June quarter of 2021 despite lockdowns in various parts of the country.

Number of households shopping on modern-trade channel grew 29.15% YoY in the September quarter and shopping volume on the channel went up by 19.2% YoY.

In September 2021, rural consumption of FMCG increased 58.2% YoY; this is 2x more than the urban consumption (27.7%).

In the third quarter of FY20 in rural India, FMCG witnessed a double-digit growth recovery of 10.6% due to various government initiatives (such as packaged staples and hygiene categories); high agricultural produce, reverse migration, and a lower unemployment rate. Rise in rural consumption will drive the FMCG market. The Indian processed food market is projected to expand to US\$ 470 billion by 2025, up from US\$ 263 billion in 2019-20

FMCG giants such as Johnson & Johnson, Himalaya, Hindustan Unilever, ITC, Lakmé and other companies (that have dominated the Indian market for decades) are now competing with D2C-focused start-ups such as Mamaearth, The Moms Co., Bey Bee, Azah, Nua and Pee Safe. Market giants such as Revlon and Lotus took ~20 years to reach the Rs. 100 crore (US\$ 13.4 million) revenue mark, while new-age D2C brands such as Mamaearth and Sugar took four and eight years, respectively, to achieve that milestone.

Companies with dedicated websites recorded an 88% YoY rise in consumer demand in 2020. Since then, more businesses have begun to adopt the D2C model, and India is now home to >800 D2C brands looking at a US\$ 101 billion opportunity by 2022.

IMPORTANT GOVERNMENT INITIATIVES, INVESTMENTS, AND DEVELOPMENTS

Some of the major initiatives taken by the Government to promote the FMCG sector in India are as follows:

In November 2021, Flipkart signed an MoU with the Ministry of Rural Development of the Government of India (MoRD) for their ambitious Deendayal Antyodaya Yojana – National Rural Livelihood Mission (DAY-NRLM) programme to empower local businesses and self-help groups (SHGs) by bringing them into the e-commerce fold.

Companies are counting on recent budget announcements like direct transfer of Rs. 2.37 lakh crore (US\$ 30.93 billion) in minimum support payment (MSP) to wheat and paddy farmers and the integration of 150,000 post offices into the core banking system to expand their reach in rural India.

On November 11, 2020, Union Cabinet approved the production-linked incentive (PLI) scheme in 10 key sectors (including electronics and white goods) to boost India's manufacturing capabilities, exports and promote the 'Atmanirbhar Bharat' initiative.

Developments in the packaged food sector will contribute to increased prices for farmer and reduce the high levels of waste. In order to provide support through the PLI scheme, unique product lines—with high-growth potential and capabilities to generate medium- to large-scale jobs—have been established.

The Government of India has approved 100% FDI in the cash and carry segment and in single-brand retail along with 51% FDI in multi-brand retail.

The Government has drafted a new Consumer Protection Bill with special emphasis on setting up an extensive mechanism to ensure simple, speedy, accessible, affordable and timely delivery of justice to consumers.

The Goods and Services Tax (GST) is beneficial for the FMCG industry as many of the FMCG products such as soap, toothpaste and hair oil now come under the 18% tax bracket against the previous rate of 23-24%. Also, GST on food products and hygiene products has been reduced to 0-5% and 12-18% respectively.

GST is expected to transform logistics in the FMCG sector into a modern and efficient model as all major corporations are remodelling their operations into larger logistics and warehousing.

ROAD AHEAD

Rural consumption has increased, led by a combination of increasing income and higher aspiration levels. There is an increased demand for branded products in rural India.

On the other hand, with the share of unorganized market in the FMCG sector falling, the organized sector growth is expected to rise with increased level of brand consciousness, augmented by the growth in modern retail.

Another major factor propelling the demand for food services in India is the growing youth population, primarily in urban regions. India has a large base of young consumers who form majority of the workforce, and due to time constraints, barely get time for cooking.

Online portals are expected to play a key role for companies trying to enter the hinterlands. Internet has contributed in a big way, facilitating a cheaper and more convenient mode to increase a company's reach. The number of internet users in India is likely to reach 1 billion by 2025. It is estimated that 40% of all FMCG consumption in India will be made online by 2020. The online FMCG market is forecast to reach US\$ 45 billion in 2020 from US\$ 20 billion in 2017.

It is estimated that India will gain US\$ 15 billion a year by implementing GST. GST and demonetization are expected to drive demand, both in the rural and urban areas, and economic growth in a structured manner in the long term and improved performance of companies within the sector.

TELECOMMUNICATION INDUSTRY

Currently, India is the world's second-largest telecommunications market with a subscriber base of 1.16 billion and has registered strong growth in the last decade. The Indian mobile economy is growing rapidly and will contribute substantially to India's Gross Domestic Product (GDP) according to a report prepared by GSM Association (GSMA) in collaboration with Boston Consulting Group (BCG). In 2019, India surpassed the US to become the second largest market in terms of number of app downloads.

The liberal and reformist policies of the Government of India have been instrumental along with strong consumer demand in the rapid growth in the Indian telecom sector. The Government has enabled easy market access to telecom equipment and a fair and proactive regulatory framework, that has ensured availability of telecom services to consumer at affordable prices. The deregulation of Foreign Direct Investment (FDI) norms have made the sector one of the fastest growing and the top five employment opportunity generator in the country

MARKET SIZE

India is the world's second-largest telecommunications market. The total subscriber base, wireless subscriptions as well as wired broadband subscriptions have grown consistently. Tele-density stood at 85.91%, as of December 2021, total broadband subscriptions grew to 792.1 million until December 2021 and total subscriber base stood at 1.18 billion in December 2021.

Gross revenue of the telecom sector stood at Rs. 64,801 crore (US\$ 8.74 billion) in the first quarter of FY22.

The total wireless data usage in India grew 16.54% quarterly to reach 32,397 PB in the first quarter of FY22. The contribution of 3G and 4G data usage to the total volume of wireless data usage was 1.78% and 97.74%, respectively, in the third quarter of FY21. Share of 2G data usage stood at 0.48% in the same quarter.

Over the next five years, rise in mobile-phone penetration and decline in data costs will add 500 million new internet users in India, creating opportunities for new businesses.

By 2025, India will need ~22 million skilled workers in 5G-centric technologies such as Internet of Things (IoT), Artificial Intelligence (AI), robotics and cloud computing.

Telecom Sector Gross Revenue (US\$ billion)

INVESTMENT/MAJOR DEVELOPMENT

With daily increasing subscriber base, there have been a lot of investment and development in the sector. FDI inflow in the telecom sector stood at US\$ 38.25 billion between April 2000-December 2021.

Some of the developments in the recent past are:

- In January 2022, Google made a US\$ 1 billion investment in Airtel through the India Digitization Fund.
- In October 2021, Vodafone Idea stated that it is in advanced talks to sell a minority stake to global private equity investors including Apollo Global Management and Carlyle to raise up to Rs. 7,540 crore (US\$ 1 billion) over the next 2-3 months.
- In October 2021, British satellite operator Inmarsat Holdings Ltd. announced that it is the first foreign operator to get India's approval to sell high-speed broadband to planes and shipping vessels. Inmarsat will access the market via Bharat Sanchar Nigam Ltd. (BSNL) after BSNL received a license from the Department of Telecommunications.

- In October 2021, Dixon Technologies announced plans to invest Rs. 200 crore (US\$ 26.69 million) under the telecom PLI scheme; this investment will include the acquisition cost of Bharti Group's manufacturing unit.
- In September 2021, Bharti Airtel announced an investment of Rs. 50 billion (US\$ 673 million) in expanding its data centre business to meet the customer demand in and around India.
- In August 2021, Tata Group company Nelco announced that the company is in talks with Canadian firm Telesat to sign a commercial pact for launching fast satellite broadband services in India under the latter's Lightspeed brand, a move which will pit the combined entity against Bharti Enterprises-backed OneWeb, Elon Musk's SpaceX and Amazon.
- In March 2021, Vodafone Idea Ltd. (VIL) announced that the acquired spectrum in five circles would help improve 4G coverage and bandwidth, allowing it to offer 'superior digital experience' to customers.
- In March 2021, Advanced Television Systems Committee (ATSC) and Telecommunications Standards Development Society, India (TSDSI) signed a deal to boost adoption of ATSC standards in India in order to make broadcast services available on mobile devices. This allows the TSDSI to follow ATSC standards, fostering global digital broadcasting standard harmonization.
- In the first quarter of FY21, customer spending on telecom services increased 16.6% y-o-y, with over three-fourths spent on data services. This spike in consumer spending came despite of the COVID-19 disruption and lack of access of offline recharges for a few weeks
- India had over 500 million active internet users (accessed Internet in the last one month) as of May 2020.

GOVERNMENT INITIATIVES

The Government has fast-tracked reforms in the telecom sector and continues to be proactive in providing room for growth for telecom companies. Some of the key initiatives taken by the Government are as follows:

- In Union Budget 2022-23 the Department of Telecommunications was allocated Rs. 84,587 crores (US\$ 11.11 billion) out of which Rs. 30,436 crores (US\$ 3.99 billion) was revenue expenditure which was 36% of the total expenditure and Rs. 54,150 crores (US\$ 7.11 billion) was capital expenditure which is 64.01% of total expenditure.
- To drive the development of 6G technology, the Department of Telecommunications (DoT) has developed a sixth generation (6G) innovation group.
- In October 2021, Telecom Secretary Mr. K. Rajaraman inaugurated the Quantum Communication Lab at the Centre for Development of Telematics (C-DOT), Delhi, and unveiled the indigenously developed Quantum Key Distribution (QKD) solution by C-DOT. QKD can support a distance of >100 kms on standard optical fiber.
- In August 2021, the Department of Telecommunications (DoT) initiated discussions with banks to address financial stress in the telecom sector, particularly Vodafone Idea Ltd. (VIL) that urgently requires fund infusion to stay afloat.

- In August 2021, the Department of Telecommunications (DoT) officials stated that it is working on a package, which includes reducing the revenue share license fee to 6% of adjusted gross revenue (AGR) of the operators from the current 8%. This would be done by reducing the 5% universal service obligation levy by two percentage points and provide
- In July 2021, Bharat Broadband Network Limited (BBNL), on behalf of the Department of Telecommunication, invited global tender for the development of BharatNet through the Public-private Partnership model in 9 separate packages across 16 states for a concession period of 30 years. Under this project, the government will provide a maximum grant
- The Rs. 12,195 crore (US\$ 1.65 billion) production-linked incentive (PLI) scheme for telecom is expected to bring in investment of around Rs. 3,000 crore (US\$ 400.08 million) and generate huge direct and indirect employment.
- In April 2021, the government pointed out that firms such as Ericsson and Nokia are now eager to expand their operations in India, and global companies like Samsung, Cisco, Ciena and Foxconn have expressed interest to set up their manufacturing base in the country for telecom and networking products.
- In March 2021, TEPC (Telecom Equipment Export Promotion Council) organized India Telecom 2021—a platform for convergence of technologies and business exchange.
- The Union Cabinet approved Rs. 12,195 crore (US\$ 1.65 billion) production-linked incentive (PLI) scheme for telecom & networking products under the Department of Telecom.
- In 2021-22, the Department of Telecommunications has been allocated Rs. 58,737.00 crore (US\$ 8 billion). 56% allocation is towards revenue expenditure and the remaining 44% is towards capital expenditure.
- Under Union Budget 2021-22, the government allocated Rs. 14,200 crores (US\$ 1.9 billion) for telecom infrastructure that entails completion of optical fiber cable-based network for Defense services, rolling out broadband in 2.2 lakh panchayats and improving mobile services in the North East.
- On January 15, 2021, India and Japan signed an MoU to enhance cooperation in the field of Information and Communications Technologies. The MoU was signed between the Union Minister for Communications, Electronics and IT, Ravi Shankar Prasad, and the Japanese Minister for Internal Affairs and Communications, Takeda Ryota.
- On January 6, 2021, the Department of Telecommunications (DoT) issued Notice Inviting Applications (NIA) for auction of Spectrum in 700 MHz, 800 MHz, 900 MHz, 1,800 MHz, 2,100 MHz, 2,300 MHz and 2,500 MHz bands. Last date for submission of applications for participation in the auction is February 5, 2021, and auction to commence online from Mar
- In December 2020, the Union Cabinet, chaired by the Prime Minister, Mr. Narendra Modi, approved a proposal by Department of Telecommunications for setting up of Public Wi-Fi Networks by Public Data Office Aggregators (PDOAs) to provide public Wi-Fi services through Public Data Offices (PDOs).

- In December 2020, the Union Cabinet, chaired by the Prime Minister, Mr. Narendra Modi, approved the provision of submarine optical fiber cable connectivity between Mainland (Kochi) and Lakshadweep Islands (KLI Project).
- On November 4, 2020, The Union Cabinet, chaired by the Prime Minister, Mr. Narendra Modi, approved to sign a Memorandum of Understanding (MoU) between the Ministry of Communication and Information Technology and the Department of Digital, Culture, Media and Sports (DCMS) of United Kingdom Government on cooperation in the field of telecommunication.
- On September 21, 2020, Prime Minister, Mr. Narendra Modi launched a project to connect all 45,945 villages in Bihar with optical fibre internet service. - FDI cap in the telecom sector has been increased to 100% from 74%; out of 100%. In October 2021, the government notified 100% foreign direct investment (FDI) via the automatic route from previous 49% in the telecommunications sector. FDI of up to 100% is permitted for infrastructure providers offering dark fibre, electronic mail and voice mail.

ACHIEVEMENTS

Following are the achievements of the Government in the past four years:

- Department of Telecommunication launched ‘Tarang Sanchar’ - a web portal sharing information on mobile towers and EMF Emission Compliances.
- Payments on unified payments interface (UPI) hit an all-time high of 3.65 billion (by volume), with transactions worth ~Rs. 6.54 trillion (US\$ 87.11 billion) in September 2021.
- Over 75% increase in internet coverage from 251 million users to 446 million.

ROAD AHEAD

Revenue from the telecom equipment sector is expected to grow to US\$ 26.38 billion by 2020. The number of internet subscribers in the country is expected to double by 2021 to 829 million and overall IP traffic is expected to grow four-fold at a CAGR of 30% by 2021.

According to a Zenith Media survey, India is expected to become the fastest-growing telecom advertisement market, with an annual growth rate of 11% between 2020 and 2023.

The Indian Government is planning to develop 100 smart city projects, and IoT will play a vital role in developing these cities. The National Digital Communications Policy 2018 envisaged attracting investment worth US\$ 100 billion in the telecommunications sector by 2022. App downloads in India is expected to increase to 18.11 billion in 2018F and 37.21 billion in 2022F.

MARKET OVERVIEW

India's Electronic Security Market was valued at USD 1.32 billion in 2021 and is expected to reach USD 4.90 billion by 2027, at a CAGR of 24.37% over the forecast period. Electronic security systems are made of electronic devices and embedded technology to develop safety measures to protect physical assets and individuals, which are helpful in various fields to deny unauthorized access. It facilitates security operations such as surveillance, access control, alarming, or intrusion control.

- With rising urbanization and crime rate, there is an increasing demand for e-security solutions and services across the country. Smart city projects and large infrastructure developments are now adopting electronics security solutions across India.
- Increased use of cameras by the law enforcement agencies, advanced analytics like AI to enable facial recognition, thermal scanning, and monitoring, and a surge in the number of residential as well as commercial buildings along with the development of smart cities, are driving the growth of the market.
- The ongoing digitization and the ever-increasing deployment of video surveillance systems are further catalyzing the market growth. The biggest factor driving the industry growth has been the recent innovations in surveillance, security, and network offerings, gradually reducing the costs of specialized products and increasing their overall effectiveness.
- India is focusing on ambitious and innovative programs such as the Smart Cities Mission, which aims to eliminate infrastructural bottlenecks, minimize friction in operations, and promote a healthy urban environment. Moreover, to stimulate the transport infrastructure, the government has also allocated INR 233,083 crore in the Union Budget 2021, and all these new infrastructures would deploy video cameras, which would augment the market's growth.
- Rapid installation of access control systems across defense and commercial sectors and investment of various private and government entities in such solutions have boosted the growth of the market. However, a lack of knowledge regarding the benefits of advanced security solutions and high prices for installment at workplaces are challenging.
- In December 2021, Sashastra Seema Bal (SSB) and the Ministry of Electronics and Information Technology (MeitY) jointly launched the Hackathon DRISHTI, an initiative to develop low-cost solutions to improve border security and illegal intrusion with the help of surveillance. The SSB invited several Indian start-ups to provide solutions in any data format and surveil the Indian borders to achieve this technology. Start-ups like iVIS, Staqu, Videonetics, Innefu Labs, and FaceTagr are such start-ups used by state governments for surveillance.
- The state governments in India are increasingly adopting video surveillance equipment to improve security and safety. With the increasing emphasis on smart cities and integrated security surveillance, many states have incorporated advanced video surveillance solutions in their cities. For instance, the Telangana government is primarily focusing on improving surveillance on the streets to upgrade Hyderabad's safety. Telangana state has more than 600,000 cameras, with most of them in the capital, Hyderabad.

KEY MARKET TRENDS

Surveillance Security System is Expected to Hold Major Share

- The state governments in India are increasingly adopting video surveillance equipment to improve security and safety. With the increasing emphasis on smart cities and integrated security surveillance, many cities have incorporated advanced video surveillance solutions in their region. Terrorism is undoubtedly another major issue in India, primarily due to the numerous terrorist attacks over the last twenty-five years.
- For instance, the Telangana government primarily focuses on improving surveillance on the streets to upgrade Hyderabad's safety. It asked enterprises, the public sectors, residential associations, and individuals to install closed-circuit television cameras (CCTVs) in and around their premises.
- The surveillance and security boom in India is fed by several companies, ranging from homegrown firms, such as CP Plus, to joint ventures, such as Prama Hikvision, to multinationals, such as Bosch, Panasonic, Honeywell, and Axis. For instance, the Telangana project, helped Sweden-based Axis Communications widen its base in the Indian market. It has already installed 1,500 cameras, and more cameras are expected to be installed soon.
- The safety of women is a significant concern in India, and video surveillance technology can help bolster the cause of women's safety. Hence, the Indian government focusing on steadily increasing the number of CCTV cameras in cities. Mumbai has one of the highest numbers of CCTV cameras installed in public places, with more than 4,717 CCTV cameras being installed across 1,510 locations on major crossings and roads.
- Such instances related to security foster the growth of vendors offering video surveillance backed by AI-driven video analytics systems, which require less manual intervention and leverage the growth of the video surveillance market.

Government is Expected to Drive the Market

- The state governments in India are spending on initiatives to make their respective states more secure. The development of smart cities is one of the vital segments of infrastructural

developments, with the application of surveillance systems, alarming systems, and access controls.

- The government has increased the outlay for the digital India program by 23 % to INR 3,958 crore for the 2020-2021 year. The increase has been mainly focused on account incentives to be given for electronic manufacturing, research, and development, cybersecurity, and promotion of IT and IT-enabled services.
- For the local and state governments, security is a top priority. Government buildings are subjected to homeland security regulations, which may mean restricting entry. Access control systems can verify employees and limit access to departments and confidential information while maintaining public access to other areas.
- In India, as part of imposing more restrictions on the visitors to the secretariat, the government decided to develop an access control system at all the entrances to the secretariat complex. The government has given sanction to the project costing INR 1.95 crore to be implemented by Keltron, with technical assistance from Kochi Metro Rail Ltd.
- In the defense sector, video surveillance has diverse applications, such as monitoring remote areas for human movement, coast guard vessels, offshore missile platforms, and perimeter security. Technological developments have led to the development of unmanned airborne surveillance systems or drones.
- For instance, to boost the Indian Army's defense and surveillance systems used on the border, in recent years, Defense Research & Development Organization (DRDO) developed robust technology-enabled surveillance equipment called Video and Image Processing Enhancement and Recognition System (VIPERS).

COMPETITIVE LANDSCAPE

With the declining product cost, there is a rise in the entry of the players offering the product observed. Additionally, the lack of differentiation in the product offerings made the vendors adopt competitive pricing strategies. Hence, due to the presence of many players, the market trend is toward fragmentation.

September 2021 -Bosch's Intrusion Control Panels (B and G Series) were integrated with LENSEC'ss Perspective Video Management Software (PVMS). This new partnership would allow security operators to manage intrusion, fire, and access control systems while monitoring video surveillance cameras behind one pane of glass.

February 2021 - IDEMIA, one of the prominent players in augmented identity solutions, partnered with the Federal Bank Limited in India to improve their existing access control and employee management systems with contactless biometric access control.

RECENT DEVELOPMENTS

March 2022 - Vihaan Networks Ltd (VNL) launched their Border Intrusion Detection System for border protection globally. In addition, VNL also provides a wide range of solutions for tactical communications, wireless signal intelligence, surveillance, and reconnaissance solutions.

September 2021 - Bosch Security, expanded its product portfolio by the Flexidome IP 8000i family with new indoor cameras that will enable installers to work smarter and faster. This newly innovated camera brings next-level starlight X and HDR X for enhanced image quality and saves valuable time with easy installation and remote commissioning.

CREDIT RISK

Your Company supplies goods to the distributors on 30-45 days credit terms. Although PIL appoints distributors by checking all the parameters of the distributors like GST Registration, PAN etc. There is always a possibility of that particular invoice amount getting delayed due to various reasons. Having said that, while appointing distributors we define a credit limit, which always is derived by checking their last 6 months bank statements. It is our policy for small distributors that unless and until they clear the payment of previous invoice.

COMPETITION RISK

All the product lines which Company carries have competition and there is always a Risk factor on sales and profitability due to that competition. There is a huge competition in almost all the FMCG (Fast-Moving Consumer Goods) products from Unorganized players and there is a huge price gap between a branded products and unbranded products which are been provided by Unorganized players. To fulfill the gap between the prices, sometimes Company needs to sell products at lower price and that affects the sales and profit. To counter such condition, Company always tries to bring innovation in design and technology.

INPUT COST RISK

There is always a risk of Input Cost increase due to supply chain disruption, International shortage of raw materials etc.

LIABILITY RISK

This risk refers to our liability arising from any damage to shipments, products etc. which may adversely affect our business. The company attempts to mitigate this risk through contractual obligations and insurance policies.

TECHNOLOGY RELATED RISK

There is always a risk due to change in technology of the product or due to obsolescence of technology. To mitigate such risk, Company always keep a close track of all the product lines technology nationally and internationally. The Company is always open to adopt positive change in the technology of the products which we deal in.

We have audited the accompanying Ind AS financial statements of Panache Innovations Limited (“the Company”), which comprises the Balance Sheet as at 31st March, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flow for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as “the Ind AS Financial Statements”).

Opinion

In our opinion and to the best of our information and according to the explanations given to us by the management of the Company, the aforesaid Ind AS Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2022, and its profit (including Other Comprehensive Income), changes in equity and statement of cash flows for the year ended on that date.

Basis of Our Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India, (“ICAI”) together with the ethical requirements that are relevant to our audit of the Ind AS Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the Ind AS Financial Statements as a whole, and in forming our opinion thereon and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed the Key audit Matter
Applicability of Ind AS 116 Leases	
<p>As described in Note-1(14) to the financial statements, the company has applied Ind AS 116 Leases in the current year. The application to this accounting standard is complex and is an area of focus in our audit since application of the same is based on a significant level of judgments and estimates including the determination of discount rates and lease term.</p> <p>As per Ind AS 116, In case of Finance Lease, lessee is required to recognise a right-of-use (ROU) asset and a lease liability arising from a lease on the balance sheet. The lease liabilities are initially measured by discounting future lease payments during the lease term as per the contract/ arrangement.</p> <p>Moreover, as per Ind AS 116, short term or low value lease is to be classified as operating lease.</p> <p>Additionally, the standard mandates detailed disclosures in respect of transition. Refer to Note No.1(14) and Note No.39 of the Ind AS Financial Statements</p>	<p>Our audit procedures on Applicability of Ind AS 116 include:</p> <ul style="list-style-type: none"> • Assessed and tested new processes and controls established by the management in identifying lease arrangements with respect to accounting standard (Ind AS 116); • Assessed the company’s evaluation on identification of leases based on the contractual arrangements and our knowledge of business; • Assessed the key terms and conditions of each lease with the underlying lease contracts; and • Assessed and tested the presentation and disclosures provided by the management in the Ind AS Financial Statements relating to Ind AS 116, including disclosures relating to transition and practical expedients applied.

Information other than the Financial Statements and Auditor’s Report thereon

The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the financial statements and our auditor’s report thereon. The Annual Report is expected to be made available to us after the date of this auditor’s report. Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters in Section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position and financial performance (including other comprehensive income), statement of changes in equity and statement of Cash flows of the Company in accordance with the accounting principles generally accepted in India, including Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS Financial Statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible

- for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls and operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Panache Innovations Limited (“the Company”) as of 31st March 2022 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENT

A Significant Accounting Policies, practices annexed to & forming part of accounts for the year ending on 31st March 2022

1 Basis of Preparation

Financial Statements have been prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (Ind AS) prescribed under the Section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and relevant provisions of the Companies Act, 2013.

Accordingly, the Company has prepared these Financial Statements which comprise the Balance Sheet as at 31 March, 2022, the Statement of Profit and Loss for the year ended 31 March 2022, the Statement of Cash Flows for the year ended 31 March 2022 and the Statement of Changes in Equity for the year ended as on that date, and accounting policies and other explanatory information (together hereinafter referred to as 'Financial Statements' or 'financial statements').

These financial statements are approved for issue by the Board of Directors on 30th May, 2022.

2 Compliance with Ind AS

The separate financial statements of the company are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis as per the provisions of the Companies Act, 2013 ("the Act"), except for financial instruments - measured at fair value or amortised cost.

3 System of Accounting :

2.1 The Company follows Mercantile System of Accounting and recognizes Income & Expenditure on an accrual basis.

2.2 Accounts of the Company are prepared under the Historical Cost convention method, except for certain financial instruments that are measured at fair value in accordance with Ind AS.

2.3 Fair Value measurements under Ind AS are categorized as below, based on the degree to which inputs to the fair value measurements are observable and the significance of the inputs to their fair value measurement in its entirety.

- a) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the company can access at measurement date.
- b) Level 2 inputs, other than quoted prices included in level 1, that are observable for the asset or liability, either directly or indirectly; and
- c) Level 3 inputs are unobservable inputs for the valuation of assets/liabilities.

4 Going Concern

Fundamental Accounting assumption of going concern is followed in preparation of the financial statement.

5 Presentation of Financial Statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The statement of cash flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Indian Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

All amounts in the Financial Statements are presented in Indian Rupees (INR).

6 Valuation of Property, Plant & Equipments & Intangible Assets & Depreciation/Amortisation policy

6.1 Method Of Valuation Of Property, Plant & Equipments.

Property, Plant & Equipments (hereinafter referred to as PPE) is recognised when it is probable that future economic benefits associated with the item will flow to the company and the cost of such PPE can be measured reliably. PPE is stated at original cost net of tax/duty credits availed, if any, as reduced by accumulated depreciation and cumulative impairment.

Expenditure for additions, improvements and renewals are capitalized and expenditure for maintenance & repairs are charged to the profit & loss account.

Depreciation

Depreciation on PPE is recognised using Straight Line Method so as to write off the cost of PPE less the residual value over its useful lives specified in Schedule- II of the Companies Act, 2013. In case of PPE purchased/sold during the year, Depreciation has been provided on pro-rata basis

6.2 Method of Valuation of Intangible Assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the company and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax/duty credits availed, if any, as reduced by accumulated amortisation and cumulative impairment.

Amortisation

Amortisation charge on Intangible asset has been allocated on a systematic basis over the best estimate of useful life.

7 Use of Estimates

The preparation of Financial Statements in conformity with Indian Accounting Standards requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the results of operations during the reporting period. As such estimates are based on the management's best knowledge of the current events and actions; there are possibilities of such estimates resulting in outcome's requiring material adjustment to the carrying amounts of assets or liabilities in future periods.

8 Employee Benefits

8.1 Short Term Employee Benefits

Employee Benefits such as Salaries, Wages, short term compensated absences, and expected cost of bonus, ex-gratia, and performance linked rewards falling due, wholly within twelve months of rendering the service are classified as short term employee benefits and are expensed in the period in which the employee renders the related service.

8.2 Post-Employment Benefits

a) Defined Contribution Plans

The company's contributions to state governed provident fund scheme and employee state insurance scheme are the defined contribution plans maintained by the company. The contribution paid/payable under the scheme is recognized during the period in which the employee renders the related service.

b) Defined Benefit Plans

The company has an obligation towards gratuity, a defined retirement plan covering eligible employees. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount based on the respective employee's salary and the tenure of employment. The present value of obligation under defined benefit plans is determined based on actuarial valuation using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows using a discount rate based on the market yield on government bonds, with a maturity period, equivalent to the weighted average maturity profile of the defined benefit obligations at the Reporting date.

Remeasurement, comprising actuarial gains and losses is recognised in other comprehensive income and is reflected in retained earnings and the same is not eligible to be reclassified to profit or loss.

Defined benefit employee costs comprising current service cost, past service cost and gains or losses on settlements are recognised in the Statement of Profit and Loss as employee benefits expense. Excess gains or losses on settlement of any claims are recognised in profit or loss when such settlement occurs. Past service cost is recognised as expense at the earlier of the plan amendment or curtailment and when the company recognises related restructuring costs or termination benefits.

9 Prior Period Errors

Prior Period Errors have been corrected retrospectively in the first set of financial statements approved for issue after the discovery of error by :-

- a) Restating the comparative amounts of the prior period presented, in which the error occurred;
- b) If the error occurred before the earliest prior period presented, the opening balance of assets, liability and equity is restated for the earliest prior period presented.

10 Financial Instruments

Financial assets and/or financial liabilities are recognised when the company becomes party to a contract embodying the related financial instruments. All financial assets, financial liabilities and financial guarantee contracts are initially measured at transaction values and where such values are different from the fair value, at fair value. Transaction costs that are attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from as the case may be, the fair value of such assets or liabilities, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

The financial assets and financial liabilities are offset and presented on net basis in the Balance Sheet when there is a current legal enforceable right to set-off the recognised amounts and it is intended to either settle on net basis or to realise the asset and settle the liability simultaneously.

10.1 Financial Assets

All recognised financial assets are subsequently measured in their entirety at amortised cost or at fair value depending on the classification of the financial assets as follows:

a) Recognition

Investments in debt instruments – at amortised cost, subject to following conditions:

- i. The asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- ii. The contractual terms of instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The management has exercised its option to measure fair value changes in Equity Instruments through Other Comprehensive Income, as such Investments have not been held by the company for the purpose of trade.

b) Recognition of Income on Financial Assets

For financial assets that are measured at Fair Value Through Other Comprehensive Income (herein after referred to as FVTOCI), income by way of interest, dividend and exchange difference (on debt instrument) is recognised in the statement of profit or loss for the period and changes in fair value (other than on account of such income) are recognised in Other Comprehensive Income and accumulated in other equity.

c) De-recognition

A Financial Asset is primarily De-recognized when:-

- i. The right to receive cash flows from the asset has expired, or
- ii. The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and (a) the company has transferred substantially all the risks and rewards of the asset, or b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.
- iii. On derecognition of a financial asset in its entirety, the difference between the carrying amount measured at the date of derecognition and the consideration received is recognised in profit or loss.

d) Impairment of Financial Assets

The Company recognises impairment loss on trade receivables using expected credit loss model, where the provisions are based on a forward-looking ECL, which includes possible default events on the trade receivables over the entire holding period of the trade receivable. These provisions represent the difference between the trade receivable's carrying amount in the consolidated balance sheet and the estimated collectible amount.

10.2 Financial Liabilities

a) Initial Recognition

Financial liabilities, including derivatives and embedded derivatives, which are designated for measurement at Fair Value Through Profit & Loss (FVTPL) are subsequently measured at fair value. All other financial liabilities including loans and borrowings are measured at amortised cost using Effective Interest Rate (EIR) method. Financial liabilities, including derivatives and embedded derivatives, which are designated for measurement at Fair Value Through Profit & Loss (FVTPL) are subsequently measured at fair value. All other financial liabilities including loans and borrowings are measured at amortised cost using Effective Interest Rate (EIR) method.

A financial liability is derecognised when the related obligation expires or is discharged or cancelled.

b) Subsequent Measurement

Financial Liabilities are carried at amortized cost using the Effective Interest Rate (EIR) Method. For trade and other payables maturing within one year from the reporting date, the carrying amounts, approximate fair value due to the short maturity of these instruments.

11 Foreign Currencies

- a) The functional currency and presentation currency of the company is Indian Rupee (INR).
- b) Transactions in currencies other than the company's functional currency occurred during the year are translated into Rupees at the exchange rate prevailing on the date of respective transactions.
- c) At each Balance Sheet date, foreign currency monetary items are reported using the closing rate. Exchange differences that arise on settlement of monetary items or on reporting of monetary items at each Balance Sheet date at the closing spot rate are recognised in profit or loss in the period in which they arise .

12 Recoverability of Trade Receivables

Judgments are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

13 Revenue Recognition

Revenue from contract with customers is recognised when the Company satisfies performance obligation by transferring promised goods and services to the customer. The revenue is measured based on transaction price, which is the fair value of consideration received or receivable, and is net of discounts, allowances, returns, goods and services tax/value added taxes/sales tax.

Interest income is recognised using the effective interest method.

14 Leases

As per Ind AS 116, the standard sets out the principles for the recognition, measurement, presentation and disclosure of lessee and the lessor. Ind AS 116 introduces single lessee accounting model and requires lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Operating lease expenses are charged to the statement of Profit & Loss. The standard also contains enhanced disclosure requirements for lessees.

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Under Ind AS 116, the lease liability is remeasured upon the occurrence of certain events, such as a change in lease term or a change in future lease payments resulting from a change in an index or rate (for example, inflation-linked payments or market rate rent reviews). A corresponding adjustment is made to the right of use asset.

Lease payments associated with following leases are recognised as expense on straight-line basis:

- a) Low value leases; and
- b) Leases which are short-term.

Assets given on lease are classified either as operating lease or as finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Initially asset held under finance lease is recognised in balance sheet and presented as a receivable at an amount equal to the net investment in the lease. Finance income is recognised over the lease term, based on a pattern reflecting a constant periodic rate of return on Company's net investment in the lease. A lease which is not classified as a finance lease is an operating lease.

The Company recognises lease payments in case of assets given on operating leases as income on a straight-line basis. The Company presents underlying assets subject to operating lease in its balance sheet under the respective class of asset.

15 Taxes On Income

The tax expense for the period comprises of current tax and deferred income tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the Other Comprehensive Income or in equity. In which case, the tax is also recognised in Other Comprehensive Income or Equity.

15.1 Current Tax

Tax on income for the current period is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income tax Act 1961.

15.2 Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the company's financial statements and the corresponding tax bases used in computation of taxable profit and quantified using the tax rates and laws enacted or substantively enacted as on the reporting date.

Deferred tax assets are generally recognised for all taxable temporary differences to the extent that is probable that, taxable profits will be available against which those deductible temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the company expects, at the end of reporting period, to recover or settle the carrying amount of its assets and liabilities.

Transaction or event which is recognised outside profit or loss, either in other comprehensive income or in equity, is recorded along with the tax as applicable.

16 Operating Segments

Operating segments are those components of the business whose operating results are regularly reviewed by the chief operating decision making body in the company to make decisions for performance assessment and resource allocation.

Considering the nature and scope of business of the Company, the Chief Operating Decision Maker could not identify any operating segments

However, a report on company's reliance on major customers is as follows:-

(₹ in Lakhs)

SALES MADE TO MAJOR CUSTOMER	TOTAL SALES MADE DURING THE YEAR	% OF SALES MADE TO MAJOR CUSTOMERS
Rs. 351.77	Rs. 839.52	41.90%

17 Borrowing Costs

Borrowing costs, general or specific, that are directly attributable to the acquisition or construction of qualifying assets is capitalized as part of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to the Statement of Profit and Loss.

The Company determines the amount of borrowing costs eligible for capitalisation as the actual borrowing costs incurred on that borrowing during the year less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalisation are determined by applying a capitalisation rate to the expenditures on that asset.

Other borrowing costs are expensed in the period in which they are incurred.

18 Provisions, Contingent Liabilities and Contingent Assets.

Provisions are recognised only when:

- a) The Company has a present obligation (legal or Constructive) as a result of a past event;
- b) It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- c) A reliable estimate can be made of the amount of the obligation.

Provision is measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, the carrying amount of the provision is discounted to the present value of those cash flows. Reimbursement expected in respect of expenditure required to settle a provision is recognised only when it is virtually certain that the reimbursement will be received.

Contingent liability is disclosed in case of:

- a) A present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- b) A present obligation arising from past events, when no reliable estimate is possible.

Contingent assets are disclosed where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each Reporting date. Where the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under such contract, the present obligation under the contract is recognised and measured as a provision.

19 Statement of Cash Flows

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method, adjusting the net profit for the effects of:

- a) Changes during the period in inventories and operating receivables and payables transactions of a non-cash nature;
- b) Non-cash items such as depreciation, provisions, and deferred taxes, and;
- c) All other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

20 Earnings Per Share

Basic and Diluted earnings per share is calculated by dividing net profit or loss for the period attributable to equity shareholders and weighted average number of shares outstanding during the period.

There are no potential equity shares in the books, and therefore diluted earnings per share are same as basic earnings per share.

B Accounting Transactions

NOTE NO. 24
REVENUE FROM OPERATIONS

(a) Recognition of Revenue

The company derives revenue primarily from sale of Consumer Electronic & Electrical Goods and IT Hardware & its peripherals and Sanitary products.

Revenue is recognised upon transfer of control of promised products or services to the customers in an amount that reflects the consideration the company expects to be entitled to, in exchange for those products or services.

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on allocation of discounts/ incentives to each of the underlying performance obligations that corresponds to the progress by the customer towards earning the discount/ incentive. The company presents revenue net of Indirect Taxes.

NOTE NO. 38
RISK MANAGEMENT

The company's Board of Directors has overall responsibility for establishment and oversight of the Company's risk management framework.

The Company, through three layers of defense viz: policies & procedures, review mechanism and assurance, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations. The audit committee oversees the formulation and implementation of Risk Management Policies. The risk and mitigation plan are identified, deliberated and reviewed at appropriate Forums.

A. Market Risk Management

Market Risk is the risk that changes in market prices-such as foreign exchange rates-will affect the company's income or the value of Financial Instruments. The objective of Market Risk Management is to manage and control market risk exposure within acceptable parameters, while optimizing the return.

i. Foreign Exchange Risk

Foreign Currency Risk is the risk that the Fair Value or Future Cash Flows of an exposure will fluctuate because of changes in foreign currency rates. Exposures can arise on account of the various assets and liabilities which are denominated in currencies other than the functional currency of the Company.

In General, the company has not entered in any foreign currency transaction.

Sensitivity Analysis

Since, The Company does not have any balanced payable or receivable in foreign currency Hence, The Company remain unaffected by movements in foreign exchange rates.

ii. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company's exposure to changes in interest rates relates primarily to the Company's Overdraft CC Account. The company's total outstanding debt in local currency presented in the Financial Statements are floating rate Debts. For the portion of local currency debt on fixed rate basis, there is no interest rate risk. Floating Rate Debts are linked to domestic interest rate benchmarks issued by Reserve Bank of India like MCLR (Marginal Cost of funds based Lending Rate) and RLLR (Repo Linked Lending Rate)

The Exposure of Company's Borrowings to interest rate changes at the end of reporting period are as follows :-

B. Financial Risk Management

i. Credit Risk

Credit Risk is the Risk of Financial Loss to the company if a customer or counter party to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers and other receivables.

Trade Receivable and other financial assets

The company has established a credit policy under which each new customer is analysed individually for creditworthiness before entering into the contract, delivery terms and conditions of payments. The company's review includes external ratings (if they are available), financial statements, industry information and business intelligence.

In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual or a legal entity, their geographic location, industry, trade history with the Company and existence of previous financial difficulties.

Expected Credit loss for trade receivable:

The Company, based on internal assessment which is driven by the historical experience/current facts available in relation to defaults and delays in collection thereof, the company is making provision on trade receivables based on Expected Credit Loss(ECL) model. The reconciliation of ECL is as follows :-

Write Off as Bad Debts	0.00	12.45
Closing Balance reported under Note No.11	0.00	0.00

ii. Liquidity Risk

Liquidity Risk is the risk that the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by cash or another financial asset. The Company manages liquidity risk by maintaining sufficient cash and marketable securities and by having access to funding through an adequate amount of committed credit lines. Management regularly monitors the position of cash and cash equivalents vis-à-vis projections. Assessment of maturity profiles of financial assets and financial liabilities including debt financing plans and maintenance of Balance Sheet liquidity ratios are considered while reviewing the liquidity position.

The Company's Finance Department is responsible for managing the short term and long term liquidity requirements. Short term liquidity finance is reviewed daily by finance department. Long Term Liquidity position is reviewed on a regular basis by the board of directors and appropriate decisions are taken according to the situation.

Maturity Analysis

The remaining contractual maturities on non-derivative Financial Liabilities are as follows:-

As at 31st March 2022

NON-DERIVATIVE FINANCIAL LIABILITIES	CONTRACTUAL CASH FLOWS			(₹ in Lakhs)
	PAYABLE WITHIN ONE YEAR	PAYABLE AFTER ONE YEAR	TOTAL	
	Borrowings	17.14	38.55	55.68

	Borrowings	10.25	26.28	36.54
Trade Payables	572.75	0.00	572.75	

The gross outflows disclosed in the above table represent the contractual undiscounted cash flows relating to non- derivative financial liabilities held for risk management purpose and which are not usually closed out before contractual maturity.

NOTE NO. 39
LEASES

A. Classification & Measurement

Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as Finance Leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of lease, whichever is lower. Lease payments under operating leases are recognized as expense on a straight line basis in net profit in the Statement of Profit and Loss over the lease term.

Where the Company is a Lessee

This note explains the impact of the Application of ind AS 116 Leases on the company's financial statements.

The company has determined the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain after making an assessment on the expected lease term on a lease-by-lease basis and thereby assessing whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Practical Expedients Applied

In applying Ind AS 116, the company has used the following practical expedients permitted by the standard:

- 1) accounting for operating leases with a remaining lease term of less than 12 months, as short-term leases
- 2) excluding initial direct costs for the measurement of the right-of-use asset at the date of initial application, and
- 3) using hindsight in determining the lease term where the contract contains options to extend or terminate the lease.
- 4) applying a single discount rate to a portfolio of leases with reasonably similar characteristics

The lease liabilities recognised in the balance sheet as on 31st March 2022, is as follows:

9	Net Profit Ratio	Net Profit	Revenue	0.13%	-1.04%	112.22%
10	Return on Capital Employed	EBIT	Capital Employed	6.11%	2.26%	170.73%

Reasons for huge variance :

- 1 The Debt Equity Ratio has a huge variance on account of recognition of a Financial Lease Liability due to which the Long term debt has increased significantly.
- 2 The Debt service coverage Ratio has improved as a result of positive earnings for the current Financial year to service the debt as compared to negative earnings in previous year.
- 3 The Return on Equity, Net profit and Return on Capital Employed Ratio has also improved on account of profits in the Current year, depicting improvement in operations of the business as compared to preceding year.

This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the EGM/AGM without restriction on account of first come first served basis.
4. The attendance of the Members attending the AGM/EGM through VC/OAVM will be counted for the purpose of ascertaining the quorum under Section 103 of the Companies Act, 2013.
5. Pursuant to MCA Circular No. 14/2020 dated April 08, 2020, the facility to appoint proxy to attend and cast vote for the members is not available for this AGM/EGM. However, in pursuance of Section 112 and Section 113 of the Companies Act, 2013, representatives of the members such as the President of India or the Governor of a State or body corporate can attend the AGM/EGM through VC/OAVM and cast their votes through e-voting.
6. In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM/EGM has been uploaded on the website of the Company at www.panachemodera.com. The Notice can also be accessed from the websites of the Stock Exchanges i.e. BSE Limited www.bseindia.com. The AGM/EGM Notice is also disseminated on the website of CDSL (agency for providing the Remote e-Voting facility and e-voting system during the AGM/EGM) i.e. www.evotingindia.com.
7. The AGM/EGM has been convened through VC/OAVM in compliance with applicable provisions of the Companies Act, 2013 read with MCA Circular No. 14/2020 dated April 8, 2020 and MCA Circular No. 17/2020 dated April 13, 2020 Circular No. 20/2020 dated May 05, 2020, Circular No. 21/2021 dated 14th December, 2021, Circular No. 02/2021 dated January 13, 2021, Circular No.02/2022 dated May 05, 2022.

8. In continuation of this Ministry's General Circular No. 20/2020, dated 05th May, 2020, circular no. 02/2021 dated January 13, 2021 and after due examination, it has been decided to allow companies whose AGMs were due to be held in the year 2021, or become due in the year 2022, to conduct their AGMs on or before 31.12.2022, in accordance with the requirements provided in paragraphs 3 and 4 of the General Circular No. 20/2020 as per MCA, circular no.02/2022 dated 05th May, 2022.

THE INTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING AND E-VOTING AT AGM AND JOINING MEETING THROUGH VC/OAVM ARE AS UNDER:

- (i) The e-voting period commences on Sunday, 25th September, 2022 (9.00 a.m.) to Tuesday, 27th September, 2022 (5.00 pm). During this period members of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date of Wednesday, 21st September, 2022, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242** dated **09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (iv) In terms of SEBI circular no. **SEBI/HO/CFD/CMD/CIR/P/2020/242** dated **December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 IN RESPECT OF RESOLUTION NO. 3 TO 5

Item:3

M/s Jain Salia & Associates, Chartered Accountants, is liable to retire from the post of Statutory Auditor of the company on completion of their tenure. Hence, for the audit of the accounts of the company from the conclusion of the ensuing AGM i.e. from the conclusion of this 41st AGM till the conclusion of 46th AGM, the Board on the recommendation of the Audit Committee proposed the name of M/s KPB & Associates, Chartered Accountants, having [FRN: 114841W] to be appointed as Statutory Auditor pursuant to the provisions of Section 139, 142 and other applicable provisions of the Companies Act, 2013 for a period of 5 years who shall hold the office of the company from the conclusion of this 41st AGM till the conclusion of 46th AGM at a proposed annual remuneration of Rs 1,25,000 for the statutory audit and limited review of the Company (excluding out of pocket expenses and statutory levies).

The fees proposed to be paid will be decided by the Board of Directors every year during the five-year tenure. For the financial year 2022-2023, it is proposed to pay a remuneration of Rs.1,25,000 for the statutory audit and limited review of the Company (excluding out of pocket expenses and statutory levies). The remuneration proposed is not materially higher than that paid to the outgoing auditor.

The Audit Committee while recommending M/s KPB & Associates, Chartered Accountants for appointment by the Board also considered various parameters like relevant audit experience, clientele served, technical knowledge etc., and found M/s KPB & Associates, Chartered Accountants to be suited to handle the scale, diversity and complexity associated with the audit of the financial statements of the Company.

The Board recommends that the Ordinary Resolution set out at Item No.3 in this Notice be passed as a Ordinary Resolution by the shareholders.

None of the Directors, Key Managerial Personnel of the Company or their relatives or any of other officials of the Company is, in any way, financially or otherwise, concerned or interested in the resolution.

Item:4

The Members may note that the Board of Directors of the Company in their meeting held on 22nd August, 2022 decided to change the name of the Company from “Panache Innovations Limited” to “Panabyte Technologies Limited” and also approved consequent change in Memorandum of Association and Articles of Association of the Company subject to receipt of approval from shareholders.

The Company had made an application for availability and reservation of name change to the Central Registration Centre (CRC) of Ministry of Corporate Affairs (MCA). The desired name “Panabyte Technologies Limited” is made available by them, vide letter dated 13th August, 2022 to the Company.

Consequent upon change of name of the Company, the name “Panache Innovations Limited” as appearing in the Name Clause of the Memorandum of Association of the Company and wherever appearing in the Articles of Association of the Company, documents, letterhead, Invoices and places would have to be substituted with the new name i.e. “Panabyte Technologies Limited”.

Pursuant to the provisions of the Companies Act, 2013 and rules made thereunder, for effecting the change in name of the Company and consequential alteration in the Memorandum and the Articles of Association of the Company, it is necessary to obtain approval of the shareholders by way of passing a Special Resolution.

It may be further noted that the said change in the name of the Company will be effective upon receipt of Fresh Certificate of Incorporation in the new name of the Company i.e. “Panabyte Technologies Limited”.

It is proposed to authorise the Board of Directors and or Officers of the Company authorised by the Board of Directors to complete all the regulatory formalities as prescribed by Securities and Exchange Board of India (SEBI), or any other regulatory or statutory authority(ies) in connection with the change in name of the Company.

The Board recommends, in the best interest of the Company, that the Special Resolution set out at Item No. 4 in this Notice be passed as a Special Resolution by the shareholders.

None of the Directors and Key Managerial Personnel of the Company and their relatives are in any way, concerned or interested, financial or otherwise, in this Resolution except to the extent of their shareholding in the Company, if any

Item:5

Continuation of Mrs. Tejaswini Chandrashekhar More (holding DIN: 00324922), as an independent director of the Company:

Based on the recommendation of the Nomination and Remuneration Committee (‘NRC’), the Board of Directors on 18th of January, 2022 passed a circular resolution , subject to the approval of the members of the Company had appointed Ms. Tejaswini More (DIN 00324922) as an Additional Independent Director of the Company via circular resolution passed on 18th January, 2022, for a term of 5 consecutive years to hold office from 18th January, 2022 till 17th January, 2027, not liable to retire by rotation.

Mrs. Tejaswini More is a practicing Chartered Accountant having experience of 29 years in the field of accounts, Taxation, Income tax, GST and financial Advisory.
